

## Sport/Utility

Sometimes keeping the garage clean seems like its own Olympic sport. But since your family is happier playing baseball or golf, we've created solutions to hold just about any equipment you might own. Let the games begin!

1. Organizers for tennis rackets, skis, golf clubs—you name it—attach to our heavy-duty slotwall.
2. Baskets of various sizes hold the things that are likely to roll under the car or be piled on the floor.
3. Single hooks come in various sizes, and the gripit is perfect for hanging brooms.
4. Roomy storage cabinets have adjustable shelves so you can customize to your particular needs. Adjustable steel legs keep things level, and optional metal extrusions protect edges and add cabinet strength.

Ask your dealer about the wide variety of other accessories available for use on our slotwall, including:

- Large and small tip-open bins
- Paper towel holders
- Tool holders
